

SHAURYA GARG

FULL-STACK DEVELOPER · AI & CLOUD SYSTEMS

Bengaluru, India | shauryagargynr007@gmail.com | github.com/Shauurrya | linkedin.com/in/shaurya-garg | shauurrya-portfolio.vercel.app

PROFESSIONAL SUMMARY

BCA student at CHRIST (Deemed to be University) who ships products end to end — Next.js and React front ends, ASP.NET, Express and Node.js services over PostgreSQL, Kotlin on Android, and Python for the data and AI layers. Lead contributor on a four-person AI skill-certification platform, built a voice-enabled financial ERP inside a four-hour hackathon, and released an Android health-analytics engine. AWS Academy Cloud Foundations graduate with an NPTEL 'Elite' grade, seeking software engineering work in applied AI systems and scalable cloud applications.

EDUCATION

Bachelor of Computer Applications (BCA) — CHRIST (Deemed to be University), Bengaluru 2024 – 2027 (Expected)
Technical volunteer, Tech Tank — CAPS credit course · Android Mobile App Development, Gamecraft workshop

EXPERIENCE

- Digital Marketing Consultant — Clever Harvey, JuniorMBA Programme** Client brand: Puma
- Consulted on a live Puma brand challenge, applying strategic marketing frameworks to a real commercial problem rather than a case study.
 - Assessed brand positioning and campaign strategy, turning market research into actionable, evidence-backed recommendations.
- Research Intern, Nanotechnology & Genetic Engineering — Corizo Edutech** 2025
- Ran a research internship across nanotechnology and genetic engineering, sharpening analytical reasoning and structured problem solving.
 - Completed the associated IIT Bombay-affiliated technical training in engineering principles and research foundations.
- PHP Web Development Intern — The Lead Origin** Apr – May 2025
- 45-day hands-on backend internship building PHP web applications; recognised for outstanding contribution (Ref 2024070608).

PROJECTS

- 7-Kaam** **LEAD CONTRIBUTOR** — TypeScript, Next.js 14, Express 5, Prisma, PostgreSQL, Redis, Flutter Team of 4 · 16 of 34 commits
- AI-powered skill certification platform for trade workers: an Express 5 and Prisma API over PostgreSQL with Redis caching and BullMQ queues, feeding a Next.js 14 analytics dashboard and Flutter worker and customer apps.
 - Owned backend services, role-based authentication and the verification workflows and data systems behind worker onboarding.
 - Built a deterministic video **Trust Engine** fusing identity, tool, task and safety evidence into explainable decision bands — 153 tests across 22 fixtures.
- CivicLedgerX — ASP.NET, C#, .NET 4.8, React, Node.js, Python, Windows Forms** DotXathon 2026 · 4-hour build
- Voice-enabled financial ERP: spoken instructions post journal entries, payments, purchases, sales and ledger records hands-free, backed by a business-simulation engine and a real-time analytics dashboard.
 - Guarded every transaction with multi-organisation RBAC, OTP authentication bound to device IP and MAC, and an AI layer flagging suspicious activity across live transaction streams.
 - Shipped twice inside the four-hour window — a web build and a Windows Forms desktop prototype in Visual Studio 2022.
- VitalCoreAI — Kotlin, Android, Health Connect, Samsung Health, Google Fit** APK released
- Android biometric analytics engine computing Readiness, Recovery, Day Strain, Sleep Debt, Biological Age and ACWR training load from Health Connect data — without a subscription wearable.
- Inventra & F1-2026-Intelligence — Next.js 14, TypeScript, PostgreSQL, Prisma, Python** Both deployed
- Inventra:** cloud inventory SaaS for Indian manufacturing MSMEs — raw-material tracking, bill-of-materials production deductions, finished-goods and sales management, and low-stock alerts.
 - F1-2026-Intelligence:** race-intelligence dashboard bundling a Bayesian engine, ML pace regression, Markov lap simulation, aero and engine models, and grid-penalty prediction.

TECHNICAL SKILLS

Languages	C#, C, Java, Python, JavaScript, TypeScript, Kotlin, PHP, SQL
Web	React, Next.js 14, Node.js, Express 5, ASP.NET / .NET Framework 4.8, HTML5, CSS3, Streamlit
Data & Cloud	PostgreSQL, Prisma, Redis, BullMQ, Pandas, AWS (Cloud Foundations), Vercel
Mobile & Tools	Android, Health Connect, Flutter, Git & GitHub, Visual Studio 2022
Systems & AI	Role-based access control, OTP and device-bound auth, AI fraud detection, real-time analytics, generative-AI tooling

CERTIFICATIONS

- AWS Academy Graduate — Cloud Foundations · AWS, 2026
- NPTEL 'Elite' — E-Business · IIT Kharagpur, 2025
- Python Foundation, Core Java, C Programming · Infosys
- PHP Web Development Internship · The Lead Origin, 2025
- Technical Training Certificate · IIT Bombay / Corizo
- Practical GenAI · Udemy, 2026 | JuniorMBA · Clever Harvey

ACHIEVEMENTS

- Built **CivicLedgerX**, a voice-enabled financial ERP, inside a four-hour window at DotXathon 2026.
- NPTEL 'Elite' grade — top cohort of 9,703 candidates.
- Scored **100%** in a National Level Online Quiz Competition.
- Represented CHRIST University at a National Level Essay Writing Competition.
